

Operations Director-Coffee (SGI-JR-0010)

SUMMARY

The position holder will report primarily to the company CEO. This role includes land and water management, nursery management, farm design, farming guidelines, farming plans, weekly field trip, crop disease control, farm scheduling, and production management and training.

DUTIES AND RESPONSIBILITIES

- 1) Oversees seed and plant selection and acquisition; performs soil and water testing.
- 2) Supports farm design of rainwater and irrigation run-off plans for land, as well as land preparation efforts; provides a comprehensive and detailed execution plan to the Technology Manager.
- 3) Proposes guidelines, operation procedures and employee training to support the company's sustainable farming mission.
- 4) Designs a monitoring system to control and account for crop production. Manages production of crops. Assistant of the Directors will support the Operations Director-Coffee.
- 5) The selected candidate will be in charge of Yearly farming plans, bi-monthly farming activity schedule and input usage.
- 6) This position includes weekly farm visit, crop health monitoring, and a detailed remediation plan in the event of disease and/or epidemic. Position will hire and train Farm Supervisors and Laborers.
- 7) Supports coffee processing activities.

EDUCATION, EXPERIENCE AND ABILITIES

- 1) Agricultural Engineer with more than 10 years of experience in Arabica Coffee farming, research, farm design and management.
- 2) Displays good knowledge of tropical crops and suitability with region and soil for diversification purposes.
- 3) Good knowledge of stabilizers, regulators and stimulators of coffee production. Mastery of pruning rules and techniques.
- 4) Be able to provide at least two work related references relevant to this position.
- 5) This could be a Part-Time position, but ability to visit farm at least 2 days a week is required.

REQUIREMENT

Ability to visit farm at least 2 days a week.
